Foreign-The trading in American stocks in

Lendon reflected support from New York as well as local, though later on the rise some New York selling made its appearance. Prices generally came higher. The arbitrage houses were both buyers and sellers, buying on balance about \$0.000 shares.

Pennsylvania.—The large oversubscription to the Pennsylvania underwriting affected sentiment favorably and the stock was strong. The specialists reported buying of an excellent character, but also that the stock came out very freely on the rise and that while there was not the urgent pressure to sell that was noted before the new issue was given to the bankers to underwrite there was so much stock for sale at the prevailing level and slightly higher that a substantial rise could not be looked for.

National Ruilway of Mexico-The strength of National Ruilway of Mexico-The strength of National Ruilway of Mexico preferred was due to the resumption of buying by the same inside citique which recently marked up the price was said that the heavy foreign selling induced by the advance was over. The gross earnings for the third week of May increased \$56.50. From January 1 the increase in gross was \$817.258.

LOCAL SECURITY LIST **GETTING SETTLED AGAIN.**

THIRD NATIONAL RALLIES PRESSURE OF URGENT LIQUI-AFTER A SLUMP. DATION IS RELAXED.

Although Prices Fluctuate Constantly All Day the General and Tone of Market Is Bearish. Level Is Higher.

New York, May 21 - The conspicuous facts tion in the pressure of the urgent and forced liquidation which has kept the market unsettled for some time and the extreme caution of the buying at the higher

WALL STREET MARKET

above last night all day, but prices wavered and fluctuated constantly throughout the session. About 2 o'clock prices were generally at the lowest and in the neighbor-bood of last night's level, but one of the numerous ralles set in during the last hour numerous ralices set in during the last hour and the closing was firm at higher prices than at any previous time during the day.

The opening dealings discosed good buying orders distributed among the great spectuative railroad stocks, the numbers of which have the largest effect on the general market. These are precisely the stocks which have suffered most severely in the recent liquidation. The evidence that they were supported had an important reassuring effect on tracers, who had become somewhat alarmed as the result of yesterday's events.

SOURCE OF LIQUIDATION.

SOURCE OF LIQUIDATION. Developments in financial and business affairs were without effect on the market, and the attention of operators in stocks was devoted almost exclusively to attempts to solve the mystery of the source of the stream of Equidation. Pure surmise and irresponsible cossip played an important part in this, but the conclusion has been quite generally arrived at that the record seiling has come from important and wealthy in-terests and that the seiling was prompted by some special financial needs of the holders rather than by conditions affecting the stocks sold.

by some special financial needs of the holders rather than by conditions affecting the stocks sold.

It is a matter of public knowledge that very large accumulations of railroad stocks have been made during the late period of rumors of extensive consolidations.

Part of this accumulation was made in the direct effort to secure control of various railroads and part of it was made by wealthy speculative followers who were informed of the prospects under way for a profitable turn in the market. The great check to the wholesale consolidation process came by the Northern Securities decision and in increasing degree from the impossibility of marketing newly manufactured securities. The consequence has undoubtedly been the abandonment of many consolidation projects and the tying up of very large holdings in the hands of the projectors and their speculative friends and followers.

Among these are many individuals who came into enormous fortunes as the result of the early period of industrial combinations, especially the formation of the United States Steel Corporation. With the ample resources in their hands they seem to have been slow to part with their securities at a sacrifice, while also, according to the current surmise in Wall street, overextending themselves in new financial and business projects which never reached the stage of culmination.

While this liquidation is held to account for the special pressure to sell, the fact remains that the exceedingly scanty buying demand which makes the selling effective in breaking prices is due to distrust of the general business and industrial outlock. The behavior of to-ins's market suggested that potential buyers of stocks were suspicious that the liquidation was not yet entirely completed. There was abundant evidence, in fact, of its occasional renewal to-day, but it was well absorbed and prices were sustained with determination.

The engagement of \$00,000 in gold for export to France was of only momentary effect. The threatening aspect of the freight handlers' dispute in Chicago seemed to be offset by the better outlook in the local building trades. An announcement that the underwriting of the Fennsylvania new stock had been oversubscribed was a strengthening influence.

The bond market was irregular. Total sales, par value, \$2,20,000. United States bonds were unchanged on the last call. demand which makes the selling effective in

UNDER SELLING PRESSURE.

Tractions Continue on Downturn

Prices for local securities were sharply lower at vesterday's morning session, but there was a reaction in the banking list in the afternoon. Third National was a surprisingly weak spot early, with a decline to \$300 a share. This was a loss of \$27.50 from the last previous sale and of \$14 from the last offer. Supporting orders came out at the second session and the price advanced to \$305.25 and closed at \$305, with proceedings of the figure. vanced to \$38.25 and closed at \$36, with more offered at that figure.

Mississippi Valley was also under forced selling pressure, with a decline of \$10 a share, to \$415.

Tructions were fairly active. Transit opened at \$34.55 and sold later at \$24.37%, the net decline for the day being \$1.12% a share. United Railways preferred sold off \$1.75 a share with a range from \$4.50 to \$7.5. The 4-per-cent bonds held firm at \$84.50 and \$5. Louis and Suburban had good support up to \$70.

Missouri Trust at \$125.75 and Lincoln at \$248 were easy on sales of small lots. Miscellaneous issues were dull and about steady.

Sheep Close Steady.

NATIVE CATTLE—Beef Steers—A fair supply of native cattle were offered, and around a thousand head less than were on sale last Tuesday with the proportion of beef steers also smaller. A very fair amount of the cattle offered were of beef steers that generally were a plain to medium class, but included some good kinds. The market ruled on a more active basis, as demands were better and values in most cases showed an advance of 10073C, with the close of last week, and in cases were considered a shade more.

The market opened slow with buyers seeking another decline, which, by hard work, they obtained. In scheral the market was about so lower, and when this basis had been once stablished there was considerable life to the trade on the medium to good hogs. Plain packers and mixed loads, including stage and rough old sows were slow sale all day. The good lights sold quickly and showed only a 50 decline, but the common once were in poor demand and sold very slow and irregular. Good simuth hogs weighing 250 or more, that suited the city butchers were the best seliors. The late market was in no way materially changed and at the close only a few small lots of inferior pigs and lights remained

Poultry.

REPUBLIC SPECIAL.

New York. May M.-Live poultry receipts today were 3 cars Western, 4 Southern and 1
Southwestern by freight and a limited amount
of express. There was a well-sustained demand
on fowls and market ruled steady at 14c. A few
Western chickens arrived and sold at 15c, but
the was full high on Southern. Turkeys show
Durks and resee slow. Pipens steady. Spring
chickens.-Western Millio. Other quotations unchanged, poultry receipts to-day were Sit pkzs.
Trade was slow and while the prospective supplies for the week are not try.

Dressed poultry receipts to-day were Sit pkzs.
Trade was slow and while the prospective supplies for the week are not try.

There was sin a street of the street of the consumers which will greatly reduce
the conformed of city trade and it is too early to
expect some support from out-of-town resorts.

Fowls centerally held at 11% for average grades
with some very selective higher.

There was an active demand for large, fresh
brollers and quotations were exceeded on birds
averaging 1% to 4 pounds to pair, but small
moved rather slowly. Old fresh-killed turkeys
firm. There was an easier feeling on suring
ducks with Mc extreme. The receipts of squabs
were quite free but mostly small white, which
were slow at 47.262.9 and even lower. There
was some movement in flower turkeys, 1 car

ALL GRAINS RULE STEADY ON CHICAGO EXCHANGE.

WHEAT OPENS WITH SMALL DECLINE, BUT CLOSES FIRM.

Covering by Shorts Causes Advance in Corn-Oats Go Up in Sympathy-Provisions Lower.

Chicago, May 36.-Wheat ruled firm after a small decline early and closed steady at 4c under yesterday. Corn was strong, with a gain of 464. Outs followed with a gain of Mc. and only provisions showed a weakness, final figures showing a loss of 5c to 1754c.

Wheat was a triffe easier at the start, due chiefly to the fact that the May deal is reported liquidated and that about 1,500,000 bu, were delivered yesterday. There was considerable early selling of July, which opened 1994c lower at 73192734c and dechecked by the Armour buying and an advance to 74%c followed. The close was steady, although the late liquidation caused steady, although the late liquidation caused some of the advance to be lost, at 73%c.

St. Louis was a fair buyer and helped the late strength.

Foreign advices were more favorable and cables about steady.

Cleurances of wheat and flour were equal to 359,877 bu. Frimary receipts were 319,832 bu., against 254,662 a year ago. Minneapolis and Duluth reported receipts of 136 cars, which, with local receipts of 34 cars, 1 of contract grade, made a total for the three points of 152 cars, against 158 cars last week and 126 cars a year ago.

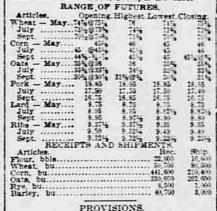

CORN.

Free covering by shorts and general good buying with but little on the market caused strength in corn. The principal influences strength in corn. The principal influences were smaller country offerings and the prospects of a freight handlers' strike, which will seriously interfere with the movement. The market showed the influence of wheat late in the session, but the close was steady, with July up 14674c, at 45146454c after ranging between 45c and 454c. Cables showed strength and cash demand was good. Local receipts were 482 cars, with 50 of contract grade.

CORN.

in the London Copylin of its for spot and its flore being marked down it is for spot and its for futures, the former closting at 199 7s 5d, and the latter at 199 Pa. The local market was dult and nominally unchanged at 14.75c for take, electrolytic and casting. There was a decline of 10s in the at London, spot closing at 192 5c, and futures at 192 5s. The local market also was lower and weak, closing at 23 194628.375c. Lead declined is 3d in London, closing at 191 2s 6d, but cemained quiet here at 4.775c. Spelter, declining 2s 6d in London, to 197 16s was quiet and unchanged in New York at 5.75c. Iron closed at 52s 3d in Glasgow and 5s 6d in Middlesboro. In New York for 3, 55c. Iron closed at 195 30ff; No. 1 foundry Northern is 197 169705. 25; No. 1 foundry Southern and No. 1 foundry Southern at 197 169705. Warrant's are nominal. Covering by shorts, "stop-loss" orders and the strength in other grains caused an advance in oats, July showing a closing gain of 14c at 344c. There was some selfing by traders early, but they turned buyers later in the day and the sentiment was
builtsh throughout the session. The cash
trade was fair. Local receipts 29 cars.

RANGE OF FUTURES.

bought May pork, and the strength in corn

are not forcing business and have little Turpentine and Rosin. Pit traders were leading sellers of provisions, and there was insufficient support to check a declining tendency. A few shorts

GIRL FELL FROM STREET CAR. Emma Feil Sustained Dislocation

of the Left Ankle. Miss Emma Feil, 18 years old, of No. 235 Lafayette avenue, was badly hurt yester-day afternoon by falling from a Fourth street car at Lafayete and Gregon avenues. She was about to alight from the car, and, witnesses say, it started before she got

off.

Doctor Charles De Groat of No. 2012 South
Ninth street, who attended Miss Feil, found
her back and side badly bruised and her
left ankle dislocated. Woman Charged With Murder.

REPUBLIC SPECIAL.
Evansville, Ind., May 25.—Mrs. Martha
Dixon, widow of the late Bonaparte Dixon,
a farmer of Perry County, was arrested today on the charge of murder and placed in
juil at Cannelton. Ball has been refused.
The Grand Jury indicted Mrs. Dixon three
weeks ago, charging her with causing the
death of her husband by administering
arsenic.
